Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £ 0,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 96 leading papers, speaks in the highest terms of this company.

The report for 1862 shews that "all the property of the Co. amounting to £810,070 is real and substantial property:" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen." Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

EDITOR'S TABLE.

The ball on the gunboat at Salto seems to have been a *distingué* affair. We have to thank a friend and subscriber for the graphic account which we publish in another column, and hope our new Salteño correspondent will kindly take compassion on us in this dull season and send us a few items for publication. The English reading public have no taste for local politics. A good game of cricket, an important sale of sheep, or a jovial hop, is just the thing we want, and we hope that our friends at all points of the River Plate compass will write to us occasionally.

New wool is beginning to arrive in the North plaza — last week four carts came in, and yesterday two more entered. If the weather keeps fine several thousand arrobes will be here in a few days.

Capt. Mansilla's new play, "Una Tia," or in plain English, "A Model Aunt," was a great success. The Victoria Theatre was crowded, and the talented author called out three times. We congratulate Señor Mansilla on his signal success.

Mr. Rom, in his weekly money market review, names the following candidates for Governors of the Provincial Bank: Dr. Velez Sarsfield, Don Jose Miguel Cuyar, D. Norberto de la Riestra, and Don Francisco Balbin; and as he says the Minister thinks there are no honest men in B. Ayres, gives a sketch of the character of each. We for our part think that Sr. Riestra is decidedly the best man, but we have serious doubts as to his accepting the post.

The new steamer which is to succeed the Mersey will be a magnificent vessel. Her builder is Mr. Caird, so well known on the Clyde. She will be about two hundred tons larger than the Mersey. Her dimensions are as follews:—1,135 tons, builder's measurement; 255 feet length of keel; 30 feet breadth of beam; 17 feet depth of hold; house on deck 7 feet and 6 inches high; hurricane deck between paddle-boxes to be 7 feet and 6 inches high; top-gallant forecastle 6 feet and 4 inches high; draught of water, with 400 tons weight on board, 11 feet; speed, on the measured mile with 350 tons of coal on board, 13 knots; to be fitted with engines of 250 horse-power with all the latest improvements.

The Mersey, we understand, has got special permission from the Brazilian Government to take cargo this trip for all Brazilian ports. This may interest some of our readers here.

Considerable interest exists as to when we shall receive here the news from England of the effect of the Souto failure. The British mail left Rio for England six days before the failure occurred; but private letters from Rio state that it is believed that news of the impending failure was transmitted by that packet. The failure occurred on Sept. 15th, the French mail left on the 24th, and the news will be known in Paris on next Saturday, the 22d Oct. The French mail, therefore, which leaves Bordeaux on the 24th October, will bring us telegrams of how the news was received at home. We may, therefore, expect to hear something about the matter on the 28th November. We cannot, however, learn full details until the arrival of the Mersey on the 13th December, nearly two months from now.

The Argentine Government, we hear, has received official intimation of the invasion of the Brazilians, and that they are making forced marches on Salto.

It would appear that the tin smiths and coopers in town do not subscribe or read the 'Tribuna.' A friend of ours put in an advertisement in that paper calling for proposals for ten thousand tins, and an equal number of small barrels, the samples to be seen at the 'Standard' office. Up to the present, not a single application has been made. Are there no English tin smiths or coopers to take the contract?

We hear that one of the brokers has been robbed of some seventy thousand paper dollars. It appears that the money was locked up in a new safe which the broker had bought. This safe had, we hear, duplicate keys, which the owner was apparently unaware of. No clue has been got of the robbers.

The races did not come off on Sunday at Belgrano, as was expected. We believe these postponements after rainy weather are unavoidable and regarded as a matter of *course*. Nevertheless hundreds went out to Belgrano, and in order to amuse the crowd some impromptu races were got up: there was a rumour that a race was to be run between a policeman and a teniente alcalde, and many waited until it was nearly dark, to see it, but it did not take place owing to the policeman having slept too long a siesta.

Our colleague the 'Tribuna' publish-pecting a conspiracy which we hear has been detected in Peru. The conspirators aimed it is said at surrendering up the country to the Spaniards. We don't think that this rumour is well founded.

The seizure of the Brazilian boat by the Oriental Government threatened to be a serious affair: is is saidthe Brazilian's sent word that if the men were not immediately released they would commence firing on the town.

It is rumored through town that this is the last Paragnayan steamer we may expect down here for some time. We do not attach much credit to this report and we feel confident that it is a mistake.

The attendance at the Church of San Roque on Sunday was large, and the charity sermon preached by the Rev. Mr. Dillon, from the text, "Thou shalt love thy neighbor as thyself," was eloquent and appropriate. The collection amounted to several thousand dollars. es a rather important statement res-

In another column will be found an accurate list of the horses entered for the foreign races to come off November 1st. It is to be regretted that three persons presented themselves yesterday to enter horses, and found it was too late. The list before us is sufficient guarantee that this meeting will be the most brilliant and successful yet seen in the River Plate.

On Friday the choristers of Colon will take their benefit in the opera of "Norma," giving also the chorus of "Masnadieri," and the splendid hunter's chorus of Freychutz, which latter is decidedly their master-piece. We hope the public will patronize this branch of our 'corps operatique,' so useful but generally so forgotten. Sor. Pestalardo deserves a vote of thanks for his liberality.

We have been requested by Rev. Mr. Dillon to return his thanks to the charitable persons who suscribed at and after his sermon on Sunday in aid of the orphans in the Irish Convent House of Refuge. We are glad to learn the amount is almost $4,000, m|c.

We were favored yesterday with a visit from an Irish gentleman who made the campaign of Independence under General Bolivar in Venezuela; his remembrances of the Irish volunteer legion would be very interesting if published.

The Palliére album was given round yesterday: the four pictures are; the Gaucho's cradle, a View of Palermo palace, Landing at low water, and the Cock-fight.

We had intended that one of the editors of this paper should go down to Montevideo in acceptance of the polite invitation to the British Amateur Theatricals; but as that city is now in state of siege, we suppose the performances must be postponed, and will have great pleasure in assisting at any future day.

We have been informed that the eclipse of the sun, Oct. 30th, was foretold not by an English resident in Montevideo, but by Dr. Samuel H. Wright, of Dundee, Yates Co., New York, U/S.

An error appeared in Sunday's Editor's Table, touching the bill for prolonging the N. Railway to Zarate, which, as we before stated, has been approved by both of the Provincial Chambers.

The Montevidean papers state that Messrs M'Coll & Wilson, on complaining to the British Charge d'Affaires (Mr. Lettsom) of the injuries sustained by English estancieros, the latter declined to call the attention of Government, but wrote a letter to the rebel General Caraballo on the matter; and these gentlemen having set off for the rebel camp, were stopped by the Government outposts and forced to return.

BUENOS AYRES GREAT SOUTHERN RAILWAY.

The half-yearly meeting of this company was held at the offices, East India Avenue, Leadenhall-street; Mr. Gilpin in the chair.

The report stated that the works were inaugurated in March last; since which time rapid progress had been made, and material to the value of £90,000 had been sent out, and a further large portion was ready for equipment. It was expected that the first two sections of the line would be opened for traffic this year, or early in 1865, and the contractors, Messrs. Peto and Betts, expressed their confident belief in their ability to complete the line to Chascomus in 1865.

The Chairman moved the adoption of the report, in which he said there were two features especially satisfactory. One was the rapid progress being made with the line, and the other the official register given by Mr. Parish, the British Minister, who was totally uninterested in the undertaking, that the existing traffic between Buenos Ayres and the district which would be accommodated by the line, amounted to £116,000 per annum, and this without counting passenger traffic. All that was now needed to insure the line a perfect success, was that the shareholders should cheerfully subscribe the calls which the directors would make. He thought the prospects of the company were satisfactory.

The report was adopted.

Mr. J. B. Wanklyn and Mr. Cash were re-elected directors, and the meeting closed with a vote of thanks to the chairman.—*The Times.*

PARAGUAY.

The Paraguay steamer leaves for Asuncion to-day; she takes up a large quantity of railway iron and an assorted cargo. Her arrival, we have no doubt, is anxiously looked for, by our friends in Asuncion. As far as regards tobacco, we are happy to say that the news received per last steamer is rather favorable than otherwise, as will be seen by the extract from a London market which we publish at foot hereof. As to politics, we regret to say that the clouds are still gathering over the ill-fated Banda Oriental: the Brazilians are thronging in at all quarters, and their squadron is stationed in the Uruguay to co-operate with the land forces. It is not generally believed, at least in the leading political circles in this city, that President Lopez will interfere for the present, although it is the anxious wish of Argentines that Paraguay would carry her threat into execution and fight the Brazilians. Public opinion on the Oriental question is daily changing round, and those who, a few months ago, could see no danger in the Brazilian intervention, now view the matter in a very different light. It is said that the Argentine policy is to let the Brazilians have all the up-hill work to themselves, and when exhausted with victory and conquest, take up the Oriental cause, and drive them out of the country. Brazil, they say, may take the river towns, occupy the country, and even seize Montevideo, but it will thereby secure the most undying animosity of all Orientals, which, with a little Argentine aid, will be sufficient to drive every Brazilian across the frontier. We, for our part, have grave doubts as to the ability of Argentines and Orientals combined to eject the Brazilians after they have seized the towns. The River Plate is at present swarming with Brazilian gunboats, which, so long as we keep friends, do not interfere with us, but if any unpleasant question arose, we greatly fear they would have the river to themselves. The animosity of Porteños to the Blanco Government party has been enhanced by the nomination of Señor Carreras as Minister, a man whose character is stained, it is said, with the Quinteros massacre. We, for our part, think that President Aguirre committed an impolitic act in selecting as his Prime Minister one who is so universally detested. Viewing the Oriental case impartially, we think the grand sequel of the Flores revolution will be the downfall of democracy in the Republic of the Uruguay, and possibly both Flores and Aguirre will yet have opportunity to judge of the correctness of our forebodings.

The leading English papers received per this mail have the most flattering remarks on the material prosperity of Paraguay. We notice this as it bears a rather striking contrast to the sentiments of most of our colleagues in this city.

There is a general anxiety, here, to see Paraguay establish more ballot boxes, have elections every week, and the people devote more of their time to polities and less to agriculture. If we are to believe rumour there are not wanting parties who are busy in studying what reforms can be introduced in Paraguay, but the fact of the matter is that, now that Congress is closed and the hot weather set in, people must be alking about something and the most popular theme is Paraguay.

The high price of tobacco in Asuncion is a matter of surprize to the merchants here, who cannot comprehend how tobacco should be selling three reals dearer in Asuncion than in Buenos Ayres. We hear that this year's crop is apt to find a very favorable market in Europe. We quote tobacco as follows:

"The sales of tobacco, including a small lot at public auction, sum up 182 bales; there has been an absence of arrivals, and our stock is reduced to 2,984 bales. The trade have shown more disposition to operate, as this grade of mixing leaf can now be bought upon more advantageous terms than any other substitute. We have advices from Buenos Ayres of a large crop, and doubtless a full average exportation will result to the English markets."—*Liverpool Circular.*

In Buenos Ayres a lot of Paraguayan tobacco has been sold in deposit at 26, 23, and 16 reals fuertes. In yerbamáte we have to report 150 'tercios,' at $53 fuertes in deposit, and 380 do., at $53. Several lots of hides from Paraguay have been sold at rates varying according to class from 40¼ to 46 rls. plata.—*Rom's Circular, Oct. 10th, 1864.*

MONTEVIDEO.

Montevideo, Oct. 15th, 4864.

The National Guards to-day are all at their quarters, and the Custom House closed, even the gates are locked with a chain and no one allowed to go into the yard. This morning a boat from one of the Brazilian gunboats was captured as she was taking correspondence to the Paraguayan steamer and the men who were in the boat taken prisoners and marched through the streets, with a guard, to the police headquarters; they attracted much attention. Later in the day they were released and allowed to go on board again.

Gen. Saá made a sally this morning to meet the enemy. They have taken all the rest of the horses from the stables, and there is hardly a carriage left with horses. To-day is published a decree ordering all stores and places of amusement closed at 10 p.m., and no more than two persons are allowed to converse together in the streets. Everything is very dull and all business paralyzed.

One of our richest residents died this morning, Don. Jose Maria Esteves, and will be buried to-morrow. He was one of the largest real estate owners in this place.

The Saintonge left at her appointed time this morning, 8 o,clock.

To-day is very hot: thermometer, 75 at 2 p.m.

GRAND BALL GIVEN AT SALTO, B. O. BY ENGLISH OFFICERS.

Amidst warlike preparations and in the face of surrounding hostilities, the influence of which for the last eighteen months has cast a gloom over Salto, this city has once more, like a glorious spring after a severe winter, basked in sunshine and been a scene of gaiety and pleasure, assuming a slight resemblance of its former self, prior to the breaking out of the revolution which ravages this country at present.

Immediately after the burning of the 'Villa del Salto' at Paysandú, the gunboats 'Sheldrake' and 'Doterel' were ordered to Salto to protect the interests of the foreign residents, and we really feel bound to say that no act could have been more appreciated by both foreigners and natives than the appearance of these vessels in the Uruguay, as it was at once seen that in case of need a force lay ready at hand to protect and guard our interests. From the first moment of their arrival the officers were received in the most cordial manner by the first families in the place: all houses were thrown open to them; public and private balls were got up by various gentlemen; horses for excursions in the camp were placed at their disposal by Colonel Trillo, the Chief Comandante, and everything that possibly could be done to add to the amusements of the hour and beguile the tedious monotony, duller than ordinary in consequence of the war, was tried, and proved most successful.

After all this gaiety, the officers were in a very embarrassing condition. To give a ball on one of their vessels was not possible, in consequence of want of accommodation; some return was necessary in requital of the great hospitality shown them; what could they do? The gordian knot, however, was speedily cut, and the happy and novel idea of lashing both vessels together alongside of each other was hit upon; and with the guns shifted forward, the bullrings taken up, and all fittings removed, two splendid saloons, one leading to the other, were formed, giving ample space for the reception of upwards of three hundred guests without the slightest crush or inconvenience.

Never has a novelty of so much attraction and interest been offered to this society as the ball given by the commanders and officers of these steamers. Previous to the events, invitations were sent out to the principal families and residents in the town, and the persons invited were received at the Mole by English officers and gentlemen and conveyed on board by the ships' boats. On arrival alongside of the two men-of-war the guests were received at the gangway by the other officers, and the ladies conducted to dressing rooms prepared for the special purpose at the stern of the Dotterel. The splended military brass band of the garrison, and a private orchestra occupied the impromptu saloons, the decorations of which had we space would well merit a description, lacking which, sorely against our inclinations, we must confine ourselves to a few remarks on them.

On stepping on board the Sheldrake and from thence to the Dotterel we were really surprised to witness the surperb yet chaste manner in which the saloons were decorated, for it must be remembered the whole affair was but the work of twenty-four hours. With flags of all nations, flowers, bouquets, banners, laurels, and illuminations, the vessels presented a most brilliant and imposing effect, and the beauty of their appearance is beyond description. The mizen-masts were dressed in white and decorated with large orange branches in full bloom, and these again were decorated with white and red roses and surrounded with boquets of the choicest ezotics, supplied by the fair guests themselves. But the decoration that called forth the most universal attention was the portrait of Her Majesty encircled in a wreath of flowers, above which in large gilt letters, shone the inscription "God save the Queen."

In another part of the vessel was seen the homely yet cordial device of—"Welcome!"

We have been, at many military balls given by crack regiments of the line in England, and, we must say, that the chandeliers composed of bayonets and cutlasses, were never exceeded in conception and beauty of design. The wines and refreshments were most *recherche*, champagne, sherry, Madeira, port, claret, and Rhine wines, flowed like water, and these were offered with the greatest attention and gallantry by the officers to their visitors. No guests were allowed to inconvenience themselves for anything, as servants were passing continually to and fro offering refreshments on all sides.

One thing that caused great amusement, was the execution of the "sailor's hornpipe" and "Highland fling," by some of the sailors, eliciting rapturous applause from the company, who, we are certain, did not understand a single step of the dances; however, "where ignorance is bliss," &c.

Amongst the numerous toasts proposed during the course of the evening was that of "The Queen," "The English flag and English nation," which was most enthusiastically received. Following this, came "The health of the commanders and officers," who received a most glowing eulogy from Colonel Trillo, the proposer of the toast.

Captain Johnson, of the Dotterel, in responding, begged to acknowledge how deeply he felt the kindness and hospitality shown to him and his fellow-officers, the remembrance of which, he could assure them, would never be effaced from his memory, and although obliged to leave them to-morrow, he entertained the hope that before many days were over, he would once more have the pleasure of cordially greeting them.

The health of "Colonel Trillo, Commander-in-Chief, north of the Rio Negro," was then proposed by Capt. Nott, of the Sheldrake, and he, after responding, begged to propose one more, "The officers of the English Navy, so affable in society, yet so terrible in war." This concluded the toasts and speeches of the evening.

Dancing commenced at eight o'clock, and the pleasure and festivity of the scene never flagged for a moment, lasting until the first gleaming of the morning light, and then, as it were, floating on the majestic and murmuring waters of the Uruguay, came, "like the sweet south, that breathes upon a bank of violets," the solemn and thrilling strains of England's National Hymn, shewing that all was over.

We cannot refrain from saying that a most friendly feeling, apart from politics, exists between both English and Government officers. Colonel Trillo, having presented a photographic group of himself and the nine principal officers of the garrison to each of the Commanders of the gunboats, as a memento of their visit to Salto, and in return Captain Nott, of the Sheldrake, has presented to him a photograph of the two vessels as they appeared on the afternoon previous to the ball.

NEWS FROM IRELAND.

The latest papers from England state that the Belfast riots are over: the number of killed is only nine, but there are 300 wounded under medical treatment. The Mayor of the city absented himself the day before the rioting began, and the local magistrates are shewn to have been accomplices with the Orangemen. Only 50 persons have been arrested, and on the simple charge of "carrying arms in a proclaimed district." As the riots lasted 14 days, and a force of 20,000 military was within five hours march of Belfast, the Government is entirely to blame for the effusion of blood.

Great excitement prevailed in Drogheda and Dundalk, the townsfolk of the latter place burning the effigy of King William III. A magistrate in Co. Cork had a great Orange demonstration on his demesne, and the Mayor (Mr. Maguire) petitioned the Lord Chancellor to enquire into and punish the offenders.

The municipality of Cork gave a banquet to the Lords of the Admiralty and Admiral Dacres: the Lord Mayor of Dublin and other notabilities assisted. Lord Carlisle having resigned the Vice-royalty, several candidates are named, to succeed him; Earl St. Germains, Lord Woodhouse, the Earl of Bessborough and others. The 'Times' has an article advocating the abolition of the Irish vice-royalty, on the grounds that the court of Dublin is only an empty pageant and costly bauble: the Irish people are perfectly indifferent on the matter.

The new Crystal Palace of Dublin is now open to the public. The world-renowned Vousden is performing to crowded houses in the Rotunda. The tide of emigration is greatly checked, and the various lines of steamers to America have reduced their fares.

The Mayor of Wexford has made a public apology to the Bishop, for having attended an examination at one of the National Schools. The Empress Eugenie sent a present of two Sevres vases, valued at £50, to some ladies getting up a bazaar in aid of a Protestant Orphan Asylum. The criminal calendars of England and Ireland for 1863 shew that crime is very low in Ireland, notwithstanding the opinion of Dr. Acosta, (late Provincial Prime-Minister of Buenos Ayres). The convictions in England are *one* in 23,000 inhabitants, those in Ireland *one* in 34,000: most of the latter are for trifling offences, such as assault and battery, grave crimes being *seven times* more numerous in England in the same ratio of population. It is however to be noted that Irish residents in England are three times as vicious as in their own country, being mostly of the lowest class.

There is a committee at present sitting in Kingstown, making a Parliamentary investigation, about the declined state of the Irish fisheries.

WOOL MARKET.

Liverpool, Sept. 7.

During the past month the wool market has been very quiet, the late great rise in the value of money and the uncertainty of the future, induce manufacturers and dealers to be very cautious in their operations, and the business of the month has consequently been restricted to the actual requirements of the trade; the total absence of speculation is marked, and the demand for America has been and is likely to continue "nil" so long as the present tariff is in force! prices generally however remain without any material alteration, and unless something unforeseen should occur, either monetary or political, to disturb the market, we must expect a high range of prices for some time to come. River Plate wools quite neglected, and the prices almost nominal. Peruvian sheep's wool in good request, and sells readily on arrival at rather higher rates, particularly for washed Arequipa and fine unwashed, Lima, but no stock at present available, and first arrivals anxiously looked for.

The decline in specie was regarded by many as a sort of effort on the part of both bulls and bears to steady the market, as there is an uneasy feeling entertained by outsiders as to the future value of our currency. Business is very dull owing to the scarcity of cargo and the saladeristos being at present idle: yet, nevertheless, money is tight, and collections miserable. The feeling of apprehension entertained respecting the state of affairs at home, is increased by the general belief that peace is about to be restored in the United States. Several brokers have orders to purchase for the end of the year at the present rate, yet good sellers cannot easily be obtained: it is idle to indulge in dreams about projects, and such like. On the present occasion the price of specie depends less on our legislators than what they are willing to believe. All the laws passed by our senators and deputies will fail to make specie cheap, so long as the money market of Buenos Ayres is at it is at present. There was a general feeling of sympathy entertained for some unfortunate money-changer or broker, who, it appears, lost some seventy thousand paper dollars out of his safe. The safe was not broken open, but it appears that it had duplicate keys, and one of the members of the establishment incautiously threw one of the keys into the river some time ago, which, it is surmised, has been washed ashore in a storm.

We heard of a sale of one hundred National Bonds to-day, of one thousand patacons each at 41.

On 'Change there was a good deal talked about Paraguay and the approaching political storm, but the general feeling is, that President Lopez is a very prudent and discreet man, and not likely to embroil his country in a war so long as it can be avoided.

We heard of a sale of bolivianos (enteros) to-day at 21.3.

Holloway's Pills and Ointment.

UNPARALLELED POPULARITY.

The wonderful cures effected by these unequalled remedies in all parts of the world have won for them their present fame and universal celebrity. Both Pills and Ointment are composed of ingredients which purify the blood at the same time that they strengthen the system. No one can deny that health depends upon pure blood and the natural action of the natural organs. Both objects are effected without risk or danger by Holloway's medicaments, which are as innocent as they are potent. Ulcers, skin disorders and external blemishes succumb to their power. These remedies, so applicable for the relief of the commonest complaints, are no less adequate to deal safely with the most formidable and dangerous diseases that have ever afflicted mankind.

SAVINGS BANK.

BANK MAUÁ AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood

Buenos Ayres, September 19, 1858.

A CURE TO BE HAD FOR A TRIFLE.

BY

HOLLOWAY'S OINTMENT.

Gout, Rheumatism, Enlargements and Stiff Joints.

A cure of these complaints is within the reach of the most humble, by fomenting the affected parts with warm salt and water, and rubbing in Holloway's Ointment twice a day. Thousands have been cured who looked upon Gout and Rheumatism as incurable. The same treatment should be employed for the removal of chalk stones, and all painful enlargements or stiffness of the joints. In such cases the Pills should be taken according to the printed directions.

Bad Legs, Bad Breasts, and Ulcerations of all Kinds.

The cure of ulcers has won for Holloway's Ointment an imperishable reputation, as this healing Ointment will restore any case, however bad, to soundness. Many bad legs arise from imprudence, happening several years before and almost forgotten; if then there be any doubt as to the origin of the sores, the patient should read carefully what is written on secondary symptoms in the Book of Directions, as those sores never heal soundly until the system has undergone a thorough course of Holloway's Purifying Pills.

oughs, Colds, Sore Throats, Diphtheria, and Bronchitis.

Any of the above ailments may be quickly cured if the Ointment be well and effectually rubbed into the neck and chest twice a day, leaving the parts constantly covered with a rag spread with the preparation: if this treatment be adopted promptly, in six hours it will effectually stop the most alarming symptoms. It must be evident that an outward application applied to the seat of the disorder must be more effectual than any that can be taken by the mouth. Holloway's Pills should be used according to the directions in order to subdue irritation, inflammation, or fever.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derangements, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy, and must be effectually rubbed twice a day into the suffering parts.

Youthful Indiscretion.

How many poor women suffer from the indiscretion of husbands, which results in bad legs, swellings, loss of health, and rheumatism—as they suppose, although it is nothing of the kind—but the effect of a certain disease taking hold of the system. No ordinary medicine can cure them; because the disease has sunk deep into their constitution. Children often have sores, and bad heads, which do not heal, for the reason that contamination occurred before their birth. Let all who may suffer from such causes have recourse to the purifying and healing properties of these wonderful Ointment and Pills, observing carefully what is said in the book of directions on Secondary Symptoms, which, if strictly followed, will effect any cure of the kind, but it will be a work of little time.

Both Ointment and Pills should be used in the following disorders;

Bad Legs	Chilblains	Fistulas	Sore-throats.
Bad Breasts	Chapped Hands	Gout	Skin-diseases
Burns	Corns (Soft)	Glandular Swellings	Scurvy
